Data flow diagram

Date	
Team ID	LTVIP2025TMID30635
project Name	Educational organization using ServiceNow

PURPOSE:

To visually map how data moves between users, systems, and processes within ServiceNow, helping to improve clarity, efficiency, and system integration in academic and administrative operations."

Uses:

*Understand and visualize how data moves through academic and administrative systems.

*Identify how ServiceNow interacts with other platforms (e.g., LM

Setting up ServiceNow instance

Creating a update set
